## Detailed Instructions

### **1** Preparing the Ears

- Place outer ear and inner ear right sides together.
- Sew around the edge, leaving a small opening.
- Turn right side out and gently press.
- Topstitch if you want a sharper edge.
- Slightly fold the base of the ear to give it a rounded shape.

### **2** Legs

- Sew the leg pieces together in pairs, right sides together.
- Turn right side out.
- Lightly stuff (not too much!).
- Close the opening by hand.

### **3** Tail

- Fold the strip lengthwise in half.
- Sew along the length.
- Turn right side out (a knitting needle can help).
- Lightly stuff if you want a firmer tail.

### **4** Triangular Body Assembly

- Place the triangular body piece with the ears along the top edge:
  - Position ears facing inward, bases aligned.
- Attach the tail at the bottom of the triangle, pointing inward.

- Add front and back legs in the indicated positions.
- Place the belly fabric on top, right sides together.
- Sew all around the edge, leaving an opening (usually on the back).
- Trim the corners.

## **5 Turning & Stuffing**

- Carefully turn the body right side out.
- Stuff gradually:
  - ✓ Start with the head
  - ✓ Then move forward
- Adjust the filling to keep a soft triangular shape.
- Close the opening using an invisible stitch.

## **6 Face**

- Attach the round nose.
- Sew or glue felt eyes (white + pupils).
- Add whiskers and details with black thread if you want a cartoon effect.

### **✨ Pro Tips**

- This pattern is perfect with very soft furry fabric: it hides small imperfections.
- For an extra playful look, make the eyes slightly asymmetrical like in the model.
- A giant version (80–90 cm) is adorable for a baby.
- Add rice inside the nose tip for a slightly weighted, stable comforter effect.
