

## Required Materials

- **Main fabric:** heavy cotton, canvas, linen, or gingham
  - **Batting or wadding** (medium thickness, comfortable yet flexible)
  - **Lining fabric** (optional but recommended)
  - Matching thread
  - Scissors
  - Pins or clips
  - Fabric pencil or chalk
  - Sewing machine
  - Iron
- 

## Dimensions of the Shown Model (for reference)

 **Always measure your chair before cutting**

- Seat width: **approx. 40 cm**
- Seat depth: **approx. 38 cm**
- Side height: **approx. 8–10 cm**
- Under-seat allowance: **4 cm**
- Seam allowances included: **1 cm**

The pattern is designed in **one single piece**, with cutouts for the back legs.

---

## Pattern – Cutting

### Complete cover

- Cut **1× main fabric**
- Cut **1× batting**
- Cut **1× lining** (optional)

 The side cutouts allow the cover to fit neatly around the chair legs.

---

## Sewing Instructions – Detailed Steps

### 1 Preparation

- Transfer the full-size pattern onto the fabric
- Cut the fabric, batting, and lining

- Layer as follows:
    - main fabric **right side facing out**
    - batting in the middle
    - lining **wrong side facing out**
  - Secure with pins or temporary stitching
- 

## **2 Quilting (*optional but recommended*)**

- Lightly quilt (straight lines or free-motion)
  - This prevents the padding from shifting over time
- 

## **3 Side assembly**

- Shape the corners by folding up the sides
  - Sew the vertical corner seams
  - Carefully align the cutouts for the back legs
  - Press seams open for a clean finish
- 

## **4 Bottom finishing**

- Fold the lower edge inward (**1 cm + 1 cm**)
- Stitch all around

👉 Optional additions:

- ribbons
  - Velcro
  - snap buttons
- (depending on the type of chair)*
- 

## **✨ Style & Sewing Tips**

- Gingham gives a **country chic** look
  - For a modern style: solid fabric + contrasting topstitching
  - If the seat is heavily used:
    - double the batting in the center
  - Always test-fit the cover on the chair before final stitching
-

## Sewing Skill Level

- **Beginner to intermediate**
  - No complex construction, but precision is important for the cutouts
- 

## Possible Uses

- Refurbishing vintage chairs
- Protecting new seats
- Coordinating kitchen / dining room décor
