## **Main Armrest Strip (Foundation of Organizer)**

This is the base panel that sits over your couch arm.

### **Step 1: Foundation Chain**

- CH 10 (this defines width)

### **Step 2: Row Construction**

Row 1:

- SC in 2nd chain from hook and across (10 SC)

Row 2–20:

- CH 1, turn
- SC across (10 SC each row)

Continue extending rows until the strip fits comfortably over your armrest (usually 18–24 inches long).

## Pocket Construction & Reinforcement

### Step 1: Placement

Lay the main strip flat and position pockets:

- Left pocket on left side
- Center pocket in middle
- Right pocket on right

Leave small spacing between each pocket

### Step 2: Attach Pockets

Using SC border join:

- Insert hook through both layers (pocket + base)
- SC evenly along sides and bottom
- Leave top open

### Step 3: Phone Support Base (Important Detail)

At the bottom of each pocket:

- Work tighter SC stitches
- Optionally add a second reinforcement row

This prevents stretching and sagging over time
